(4)

5.0 Basic Actions Departments should undertake should include:

5.1 Organisation Structure, Awareness and Training

- i. Identify and deploy an officer responsible for security in your organization/ department
- ii. An individual in the organization must be made responsible for protecting Aadhaar linked personal data. That person should be in charge of the security of system, access control, audit, etc.
- iii. Ensure all officials involved in any IT related projects read Aadhaar Act, 2016 and IT Act 2000 along with its Regulations carefully and ensure compliance of all the provisions of the said Acts.
- iv. Ensure that everyone including third parties involved in Digital initiatives is well conversant with provisions of IT Act 2000 and Aadhaar Act, 2016 along with its Regulations as well as processes, policies specifications, guidelines, circular etc issued by the authorities from time to time.
- v. Create internal awareness about consequences of breaches of data as per IT Act 2000 and Aadhaar Act, 2016.
- vi. Ensure that employees and officials understand the implications of the confidentiality and data privacy breach.

5.2 Technical and Process Controls

- i. Follow the information security guidelines of MeitY and UIDAI as released from time to time.
- ii. Informed consent – Ensure that the end users should clearly be made aware of the usage, the data being collected, and its usage. The user's positive consent should be taken either on paper or electronically.
- iii. Ensure that any personal sensitive information such as Aadhaar Number, Bank Account details, Fund transfer details, Gender, Religion, Caste or health information display is controlled and only displayed to the data owner or various special roles/users having the need within the agency/department. Otherwise, by default, all displays should be masked.
- iv. Verify that all data capture point and information dissemination points (website, report etc) should comply with IT Act and UIDAI's security requirements.

- d. If none of the above is working (multi-finger, Iris, anyone in family, etc.), then agency must allow alternate exception handling schemes using card or PIN or other means.
- xvi. All access to information, or authentication usage must follow with notifications/receipts of transactions.
- xvii. All agencies implementing Aadhaar authentication must provide effective grievances handling mechanism via multiple channels (website, call-center, mobile app, SMS, physical-center, etc.).
- xviii. Get all the applications that collect personal sensitive information audited for application controls and compliance to the said Acts & certified for its data security by appropriate authority such as CERT-IN empanelled auditors.
- xix. Use only STQC/UIDAI certified biometric devices for Aadhaar authentication.
- xx. Check all IT infrastructure and ensure that no information is displayed and in case it is displayed, please remove them immediately.
- xxi. Ensure that adequate contractual protection is in place in case third parties are involved in managing application/ data centers

5.3 Data Retention and Removal

- i. Ensure that the department has developed a data retention policy
- ii. Ensure that you do not store personal sensitive information for a period more than what is required
- iii. Delete/ remove/ purge the data after a specified period

5.4 Aadhaar Specific precautions

- i. Do not publish any personal identifiable data including Aadhaar in public domain/websites etc.
- ii. Do not store biometric information of Aadhaar holders collected for authentication.
- iii. Do not store any Aadhaar based data in any unprotected endpoint devices, such as PCs, laptops or smart phones or tablets or any other devices.
- iv. Do not print/display out personally identifiable Aadhaar data mapped with any other departmental data such as on ration card/birth certificate/caste certificate/any other certificate/document. Aadhaar
