Golden Peacock Awards, instituted by the Institute of Directors (IOD), India in 1991, are now regarded as a benchmark of Corporate Excellence worldwide.

As other Business Award today receives the kind of recognition and adulation among peers, that Golden Peacock does. Today there are a large number of Business Awards globally. The purpose is to create a competition for raising overall standards and recognise the achievements of the best performing organisations. The question is how relevant, rigorous and accelerated are the criteria and how important is the assessment process?

Is there that Golden Peacock Awards, established in 1991, and Golden Peacock Awards for Leadership and National Excellence, over the time, have become a hallmark of excellence, both locally and globally. No award has achieved such recognition and adulation from the industry as the Golden Peacock Awards, which today receives around 1000 applications for specific awards each year. The award is in its 20th year and 3rd millennium period, based on internationally recognised criteria. Based on recognition, 3 awards, more preparation of information and compilation of data required for Self Appraisal Report, helps to align and inspire the team and force and rapidly accelerates the pace of system improvement in an organisation.

Award winners are eligible to use the Golden Peacock Awards logo with year, on all printed and promotional materials, which evidences the highest accolade received by the organisation.
